in the following manner:

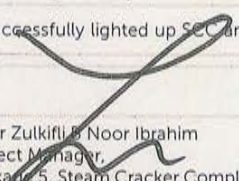

GMC took over from another subcontractor in November 2017 for civil works at the 5212 Tank Area Offsite Area and made a good recovery in construction progress, in support of Mechanical Completion expected in December 2018.

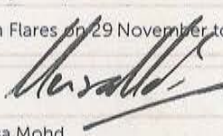

The team demonstrated strong commitment to achieve the following:

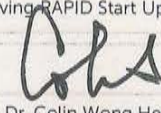

- Worked extended hours throughout the entire work schedule.
- Completed two ACC Basins within 3 months, compared to 6 months by other subcontractors.
- Completed slop oil tank within 4 months, compared to 6-8 months by other subcontractors.

By doing this, you have positively impacted the following key result(s):

Successfully lighted up SEC and Petchem Flares on 29 November towards achieving RAPID Start Up in Q1 2019
